

Get set up on iRecord

Step 1: Go to the iRecord website to set up an account: <https://irecord.org.uk/>

Step 2: Click on 'Create a new account'

The screenshot shows the iRecord homepage with a navigation bar (Home, Record, Forum, Help, Log in) and a 'Home' section. Below the navigation is a 'Targeting Revisits' map for grasshoppers, showing a grid of squares with various colors representing record status. A legend indicates: Target for records (pink), New this year (light pink), Successful records (green), Multi-year (dark green), Rediscovery targets (light green), and Rediscovered (dark green). A tooltip on the map provides details for a specific square: 'Target for records', 'No. Years: 2', 'No. Taxa: 2', 'First Year: 2011', 'Last Year: 2011', 'Last Visited: 2011', and 'Species: Field Grasshopper, Lesser Marsh Grasshopper, Roger's Bush-cricket, Speckled Bush-cricket'. Below the map is a note: 'Example of a "Rediscovery target" square for grasshoppers, with four species recorded but no records since 2011.' To the right is the 'Create new account' form. The form includes fields for 'Username or e-mail address', 'Password', 'Forgot Password?', 'CAPTCHA', 'Math question', and 'Log in' and 'Create new account' buttons. A red box highlights the 'Create new account' button, which is labeled with the number '2'.

Step 3: Complete the 'Create new account' form

- Email address
- Username
- Password
- Confirm password
- Tick the box to confirm if you are aged 13 or over
- First name
- Last name
- Tick the box to accept the iRecord terms and conditions
- User Interface Options: Select 'Use the default settings for each page'
- Submit an answer to the Captcha maths question

Step 4: Verify your account by.

- Check your emails for an email from iRecord
- Click on the link to 'Verify Account'
- This will open up iRecord and activate your account, specifically the 'My account' page.

Dear keiron_9,

Thank you for registering at iRecord.
You may now log in and verify your account by clicking this link or copying and pasting it to your browser:

[Verify Account](#)

This link can only be used once. You will be able to log in at <https://irecord.org.uk/user> in the future using:

username: keiron_9
password: your password

To help you get started, [some helpful guides to various aspects of iRecord are available using the link below.](#)

-- iRecord team

Step 5: Edit your account settings

- Click on 'Edit' to update your iRecord preferences.
- DO NOT select 'Training mode' – this will treat all of your records as not real and they will not be added to the database.
- We recommend a CC BY or CC0 licence for photos or other media unless you plan to sell your photos (in which case you may prefer to set the licence to ARR).
- Updating the 'What you record' and 'where you record' sections will tailor the iRecord home page to your preferences.

The screenshot shows the 'keiron_9' account page. It includes a profile picture, a 'View' button, an 'Edit' button (which is highlighted with a red box and labeled with the number '5'), and a timestamp '23 minutes 57 seconds'. Below the buttons is a summary: 'First name: Keiron', 'Last name: Brown', and 'Confirm that you are aged 13 or over: Yes'.
